- Over 12 years experience in Occupational Therapy in Private Practice

EDUCATION

Degree Title | Salford University

- BSC (HONS) OCCUPATIONAL THERAPY
- HEALTH & CARE PROFESSIONS COUNCIL REGISTRATION (OT34888)

EXPERIENCE

Current Clinical Practice

Specialist Neuro Occupational Therapist | Munro Therapy Services
May 2017 to present day

Specialist Neuro Occupational Therapist & Clinical Director, Munro Therapy Services.

I provide standardised and non-standardised Neuro Occupational Therapy assessment and treatment to clients with Acquired Brain Injury (ABI) on a daily basis.

My background in Neurology, including Stroke, also means I am competent and confident in the assessment and treatment of clients with a variety of Neurological impairments.

Furthermore, I am competent and confident in assessing and treating injuries that Clients often sustain along with their Brain Injury, including but not limited to orthopaedic injuries, amputations and Brachial Plexus injuries.

Due to the complex nature of Brain Injury, I have developed a particular skill set working with clients who have a dual diagnosis of brain injury and mental health condition.

I pride myself on providing evidence based practise, and continually review and update my practices according to legislation and new learning.

I have been assessing clients and providing documentation and reports for Solicitors since 2008. I have no experience as of yet of court appearance.

In my role as Director of the company, I am responsible for supervising a team of Occupational Therapists and Rehabilitation Assistants.

Former Clinical Practice

Rehab Without Walls	2008-2010	Case Manager	Acquired Brain Injury
